

Dear Students,

Welcome back to school! I hope you all had a fun and relaxing summer. I'm so excited to start a new school year with each of you. We have a lot of exciting things planned, and I can't wait to see all the amazing growth you'll achieve this year.

As we get started, you'll hear some words and phrases that might be new to you, but don't worry—we'll learn them together! We'll talk a lot about our "learning objectives," which are the goals we set for what we want to learn and achieve. Each day, we'll have a "morning routine" to get us started on the right foot, and we'll always have "exit tickets" to check our understanding before we leave for the day.

We're also going to work on our "growth mindset." This means believing that we can get smarter and better at things by working hard and never giving up. Mistakes are okay—they help us learn!

I'm looking forward to lots of "collaborative learning," where we'll work in groups to solve problems and share ideas. We'll also have "independent practice," where you can show what you've learned on your own. Remember, it's all about doing your personal best!

Get ready for a year full of discovery, creativity, and fun. Let's make this the best year yet!

See you soon!

Mrs. Hunt 
6th Grade Teacher

Dear Parents and Guardians,

Welcome to a new school year! I am thrilled to be your child's 6th Grade teacher, and I look forward to partnering with you to ensure a successful and enriching year for your student. This year promises to be filled with exciting learning experiences, and I am committed to fostering a positive and supportive environment where every student can thrive.

As we embark on this journey, you may hear your child mention some educational terms and phrases that we use in the classroom. For instance, we will be focusing on "learning objectives," which are the specific goals we set for each lesson. These objectives guide our daily instruction and help us stay on track toward mastering key skills.

You may also hear about our "differentiated instruction" approach, which means I will tailor lessons to meet the diverse learning needs of each student. Whether your child needs more of a challenge or additional support, I will work to ensure that every student is engaged and learning at their own pace.

To encourage a "growth mindset," we'll emphasize the importance of effort, perseverance, and learning from mistakes. We believe that with hard work and a positive attitude, every student can achieve their full potential.

Communication is key to a successful school year. I will keep you informed about your child's progress through regular "formative assessments," which help me understand how well students are grasping the material and where they might need additional support. We'll also use "summative assessments" to evaluate overall understanding at the end of a unit or term.

I'm excited about the "collaborative learning" opportunities we have planned, where students will work together on projects and activities. These experiences not only enhance academic skills but also help build important social and teamwork abilities.

Please don't hesitate to reach out if you have any questions or concerns. I believe that a strong home-school connection is essential for your child's success, and I look forward to working with you throughout the year.

Thank you for your support. Let's make this a fantastic year of learning and growth for your child!

Sincerely,
Mrs. Hunt 
6th Grade Teacher
