

Hello SFA Students and Families,

My name is Mr. Brian Bruno and I am the new Honors Math teacher here at Saint Francis of Assisi School. It is a joy to be returning to my grade school – a place where I called home for ten years, graduating in 2010. I am grateful for the opportunity to teach Honors Math and enjoy getting to know you all throughout the school year!

Prior to me landing back at St. Francis, here is a little bit about me since I left the SFA building. I graduated from Pope John Paul II High School in 2014. I then graduated from Cabrini University in 2018 with my B.S. in Accounting, while minoring in Human Resources Management. A year later, I received my Master of Accounting also at Cabrini.

While obtaining my Masters, I worked as a Staff Auditor at a local CPA firm for one year. During my time there, I had a change of heart and decided to pursue teaching. In September 2019, I began teaching at Monsignor Bonner & Archbishop Prendergast Catholic High School in Drexel Hill, where I taught multiple business courses for four years.

I left Bonner & Prendie before the prior school year to help out my father, who is battling lung cancer. But now, I am looking forward to returning back to the classroom, where my main priority is to provide a good learning atmosphere for all my students. While this is an Honors Math course with more responsibilities and challenges, I will always be there for my students because I want them to succeed in their respective math classes and in life,

Again, I am looking forward to this school year and I ask for your prayers, as I will pray for you!

Sincerely,

Mr. Brian Bruno '10
