

Hello Parent(s)/Guardian(s)!

Welcome back to another school year!

My name is Teresa Akers. This is going on my third year teaching here at SFA, and it has been a wonderful experience. I received a Bachelors and a Masters degree from Arcadia University. I have taught Pre-K and Kindergarten, and I've even taught college level English, and I will say Middle School is, by far, my favorite.

I am the Middle School 7th Grade and 8th Grade English Language Arts (ELA) and Science teacher. Many of the now seventh graders already know me, but this will be the first time I'm actually teaching them. However, I look forward to getting acquainted with them and with the seventh grade parent(s)/guardian(s). I look forward to this school year being the best one yet. I have many fun and exciting lessons for both the seventh and eighth grade classes, and I look forward to seeing all of my now eighth graders on the first day of school. I also look forward to seeing all of the parents from both the seventh and eighth grade classes on Back-to-School night.

Parent(s)/Guardian(s) should also reach out to me whenever they need to, either through my email or through ClassDojo. Let's work together in helping our students succeed.

Sincerely,

Teresa Akers
